

Ankit Bhatia

Profile

Experienced and passionate frontend developer with 15 years of proven technical and organizational skills. Adept in analytical thinking, coding, leadership, and problem-solving. Seeking a challenging position to leverage my expertise and drive innovation within your organization. Committed to advancing my career in Tech Leadership roles and contributing to organizational success.

Employment History

Senior Frontend Developer - II (Principal Engineer), Novorise Fintech Pvt Ltd, Gurugram

09/2021 - Present

- Increased company revenue by \$200,000 in the first month of launch by developing the Express ACH feature for the core banking division.
- Enabled small businesses to access funding by developing the Novo Funding feature, leading to approximately \$10 million in loans within the first six months.
- Led the frontend development of the Debit Card feature, including the user-facing application and Novo Administrator portal, generating 60% of Novo's revenue and becoming the organization's most critical core banking feature.
- Spearheaded the team responsible for migrating from JavaScript to TypeScript and identifying and fixing security vulnerabilities in web applications, improving code quality and security.
- Tech Skills: ReactJS, Redux, NodeJS, GraphQL, Tailwind, Postgres, Webpack, Github, JIRA, Javascript

Frontend Lead, Epsilon Conversant, Bengaluru

12/2019 - 09/2021

- Successfully led and managed multiple teams of 5-7 developers each, ensuring effective collaboration and project delivery.
- Reduced overall development time by creating streamlined processes for the frontend team and aligning development workflows with AEM.
- Delivered significant impact in the Digital Division by developing internal tools for the sales and management departments using the MERN stack, which were later showcased to secure external project bids.
- As the representative and manager between the frontend team and the client, I successfully facilitated seamless communication and ensured project alignment, resulting in the timely and efficient delivery of high-quality solutions
- Tech Skills: ReactJS, Javascript, LESS, NodeJS, AEM, JIRA, Github, HTML, CSS, Storybooks, Webpack, Gulp

Technical Lead, TEKSystems, Bengaluru

05/2019 - 12/2019

- Lead & mentored a team of 3 developers.
- Directly communicated with the client to provide status updates, report work progress, and manage project estimations and timelines.
- Implemented a robust code review process, resulting in a 30% reduction in technical debt.
- Tech Skills: Javascript, NodeJS, HTML, CSS, Github

Sr. Interactive Developer, Sapient Consulting, Gurugram

02/2014 - 05/2019

- Developed innovative new features in the Personal Investor division for Fidelity, significantly increasing overall traffic and enhancing user engagement.
- Independently created high-quality components in AEM while developing the MFS web application, contributing to the project's overall success and functionality.
- Directly managed client communication, facilitating clear and efficient information exchange, and actively participated in planning, grooming, and development phases to ensure project success.
- Demonstrated efficient use of Agile methodologies, earning client recognition for improving team productivity and project outcomes at Fidelity.
- Tech Skills: ReactJS, Javascript, LESS, SCSS, NodeJS, AEM, jQuery, JIRA, Github, HTML, CSS, Angular 2, BackboneJS, Grunt, Gulp

Lead Engineer, HCL Technologies, Noida

04/2011 - 01/2014

- Single-handedly managed the frontend of the client's web app, maintaining 100% billability and ensuring high-quality delivery.
- Introduced jQuery to projects, enabling the development of advanced features and enhanced animations for improved user experience.
- Developed innovative jQuery plugins such as accordions, image carousels, floating popups, and infinite tabs, significantly enhancing app functionality and user interaction.
- Tech Skills: jQuery, Javascript, HTML, CSS, Github

Software Development Engineer, Treystaa Services, Delhi

08/2009 - 12/2010

- Added significant value to the product by building a comprehensive reports feature using jQuery and ActionScript 3.
- Enhanced marketing and promotional activities by creating interactive video demos with ActionScript 3 in Adobe Flash, aiding product owners in effectively showcasing the product.
- Tech Skills: jQuery, Javascript, Actionscript 3.0, HTML, CSS, Adobe Flash, Adobe Photoshop

Web Designer, Vinove Software & Services, Delhi

07/2008 - 07/2009

- Converted 3-4 PSDs per day, significantly boosting company revenue through increased efficiency.
- Trained junior web designers in developing webpages from scratch using XHTML, CSS, and JavaScript, enhancing team capability and productivity.
- Took charge of the frontend development for invoicing and money management products, scaling them from PoCs to revenue-generating solutions.
- Tech Skills: HTML, CSS, Adobe Photoshop, PHP, SVN
