Ankit Bhatia

Profile

14 years experienced passionate developer with proven technical and organizational skills seeking a challenging position in your organization.

With strong analytical, coding, leadership and problem solving expertise, I look forward to scale my career in Tech Leadership roles.

Employment History

Senior Frontend Developer - II, Novorise Fintech Pvt Ltd, Gurugram

09/2021 - Present

- Company's revenue increased by $200,000 in the first month of launch, with Express ACH feature built by me in core banking division.
- Enabled small business by developing Novo Funding feature, where Novo, in first 6months, had loaned approx 10million USD to its end users.
- Lead the frontend development of Debit card feature including user facing application as well as Novo Administrator portal, which is generating 60% of the revenue for novo and is the most critical core banking feature for the organization.
- Outside project I am leading the team responsible for JS to TS migration, and, identifying security vulnerabilities in the web apps and fixing them.

Frontend Lead, Epsilon Conversant, Bengaluru

12/2019 - 09/2021

- Mentored & Lead multiple teams of 5-7 developers each.
- Reduced the overall development time by building processes for frontend team and aligned the development process in sync with AEM.
- Brought impact in Digital Division by developing internal tools for sales & management dept. using MERN Stack, which were later showcased to bid for external projects.
- I was the representative for and acted as a link between the frontend team and the client

Technical Lead, TEKSystems, Bengaluru

05/2019 - 12/2019

- Lead & mentored a team of 3 developers.
- Had to communicate with client directly for the status updates, work progress and project estimations and timelines.
- Established code reviews process and helped reducing technical debt by 30%

Sr. Interactive Developer, Sapient Consulting, Gurugram

02/2014 - 05/2019

- Built the web apps for MFS and Fidelity UK from scratch.
- Demonstrated efficient use of Agile which got recognized at client side.
- Helped increase overall traffic by developing new features in Personal Investor division.
- Single-handedly worked on creating the components in AEM while working on the MFS webapp.
